Accredited Training in Intense Pulsed Light & Laser Therapies

**Intense Pulsed Light for
Hair Reduction**
91378NSW

**Intense Pulsed Light for
Skin Rejuvenation**
91377NSW

About the trainer.....

Ilse Taumberger is a Registered Nurse and Beauty Therapist, has owned her own beauty salon and has worked in hospital settings in the capacity of Clinical Nurse Specialist.

Combining nursing and beauty therapy has opened exciting opportunities in the cosmetic industry where she became staff trainer at one of the largest laser & cosmetic companies, training staff in microdermabrasion, skin peels, injectables, Laser and IPL treatments.

The lack of formal education in laser and pulsed light therapies has inspired Ilse to pursue a career in laser and pulsed light training further.

Three years ago she purchased Fuss Beauty College, a Registered Training Organisation in order to gain government accreditation in Laser and IPL treatments and is now offering two accredited courses at the college.

As well as working in clinical settings with many different types of equipment Ilse has completed a number of courses in Laser & Pulsed Light overseas and in Australia and has also completed the Certificate IV in workplace training and assessment.

The accredited courses offer generic information and are suitable for users of Laser or pulsed Light equipment.

Intense Pulsed Light for Hair Reduction 91378NSW

5 day course

Intense Pulsed Light for Skin Rejuvenation 91377NSW

5 day course or 3 days in addition to HR

The courses are five days each or 8 days combined (both include two days of Laser & Pulsed Light safety) These courses provide a solid foundation for all Laser & Intense Pulsed Light practitioners specialising in hair reduction and/or skin rejuvenation. The course offers 5 interactive days of theoretical and practical training and covers the following topics, guided by the AUS/NZ Laser Safety Standards

Key Topics

- Physics of Light & Laser beams
- Laser & Light Systems
- Safety & responsibility
- Maximum Permissible Exposure
- Engineering controls
- Administrative controls
- Personal protective equipment
- Skin anatomy revision
- Hair anatomy revision
- Light & tissue interaction
- Fitzpatrick Skin Types
- Skin conditions
- Contra indications
- Client assessment & consultation
- Test patch procedures
- Practical IPL application

Course cost (early bird rates available)
(includes lunch and refreshments)
\$ 2500.00 HR 5 days or SR 5 days
\$ 1500.00 SR 3 days in addition to HR

Course prerequisites apply:

This course is available to doctors, nurses and beauty therapists. Participants with no Medical or Beauty Therapy background are required to complete the following prerequisite units:

- WRBCS305A Apply knowledge of skin biology to beauty treatments
- WRBCS408A Apply knowledge of anatomy and physiology to beauty treatments
- WRBCS409A Apply knowledge of skin science to beauty therapy treatments
- WRBCS410A Apply knowledge of electricity to beauty therapy treatments
- WRBCS411A Apply knowledge of nutrition to beauty therapy treatments

Cost: \$950.00

Recognition of Prior Learning:

This is available if you have completed other forms of training that match the unit requirements of the course. Please enquire at the college.

Assessments:

Written assessments / workbooks

Practical assessment with oral questioning

Both courses require the participant to complete a case study and supervised practical training following the course.

Participants who complete the course successfully are issued with a "Statement of Attainment"

Clinical training in your salon for Individuals or small groups:
