

#### .... about the future

Our college is further expanding into the post graduate training services as the beauty industry evolves and expands into highly technical fields such as microdermabrasion, skin peels and pulsed light hair removal and skin treatments.

The possibilities are endless we are looking forward to an exciting future as new treatments and training methods evolve in the beauty industry.

#### .... about job placement

We are continuously approached by beauty salon owners, hair and nail salons with positions available - most students have secured a job at graduation time.

#### .... now situated at

**Shop 2,  
161 New South Head Road  
Edgecliff  
NSW 2027**

Conveniently located close to buses, trains and parking, we are situated only 300 metres from Edgecliff station toward the city.

...let us fuss over you

#### .... about fuss

Fuss Beauty College is a Registered Training Organisation (RTO) with **VETAB** offering nationally recognised and accredited courses and qualifications from the Beauty Training Package.

The college is also listed on CRICOS, which allows us to deliver these courses to overseas students as well.

#### .... about the training

Students train in small groups with the support of our experienced and dedicated educators. We use the latest equipment, a range of quality products and offer product knowledge seminars for a variety of cosmetic products. All uniforms, textbooks, products and equipment are supplied.

#### .... about work experience

Once students have passed their theory and practical exams in individual units, they progress to perfecting their communication and treatment skills of those units in our student salon with "real" clients.

This prepares students for the demands of busy real life salon situations and gives them the skills of salon management including housekeeping, reception and retail skills.

We also provide our students with work experience in carefully chosen and selected salons to further broaden student's experience.

#### .... about the courses

##### oCertificate II in Nail Technology

WRB20104

Teaches students the skills of manicure & pedicure, acrylic nail enhancement, nail art.

##### oCertificate III in Beauty Services

WRB30104

For all individual units completed successfully, students gain a statement of attainment.

#### .... about career opportunities

There are endless career options for anyone entering the beauty industry, from enjoying the rewarding work when dealing with clients in a:

- beauty salon
- hairdressing salon
- day spa
- travelling the world on a cruise ship
- Paramedical Aesthetician
- working closely with cosmetic surgeons
- become a Pulsed Light Technician and
- lots more

.... the opportunities are endless

We believe in setting high standards in training and offer the latest in technology, so students are well equipped with solid knowledge which they can build upon for a lifelong rewarding career.

#### .... about RPL

- Does your insurance accept your qualifications?
- Do you meet the current and new standards of the beauty and nail industry?

Recognition of Prior Learning (RPL) is provided for previous studies and reduces course duration and cost, making it easy to update and upgrade your skills. Please contact us for an assessment.

We are using and recommending Dermalogica and ASAP products
